RESEARCH BY JAMES & CAROL MULVIHILL

BRITISH BREEDERS FORUM PRODUCE STAKES

One of the most welcome developments on the British Breeding scene in recent years has been the increased number of breeders prepared to seek out the best stud dogs.

As I wrote earlier this year about the Two Year Old Stakes at Swindon, British Breeders have followed the lead of their Irish counterparts in out-crossing to Australian Stud Dogs, of the thirty five sires that had three or more litters entered for the 2004 Breeders Forum Produce Stakes, seven were by Australian Stud dogs and seven were by sons of Australian Stud dogs.

Prior to this year there had only ever been three finalists by Australian Stud dogs, this year the final was made up by the produce of five different sires of which four were Australian and one by the British bred SONIC FLIGHT, a son of the deceased Australian Stud dog FRIGHTFUL FLASH.

When PAINF SPOT crossed the line in the final this year he credited his sire SONIC FLIGHT with his first success as a sire of the Produce Stakes, and gave FRIGHTFUL FLASH his third success as a grand sire in the last five years.

SONIC FLIGHT was entered for the 2000 Breeders Produce Stakes but was injured in finishing second in the final Blue Riband. This injury prevented him taking his chance, but litter sister EARLY FLIGHT finished second behind the P. Ruddick trained HES NOBODYS FOOL (TOMS THE BEST x WESTMEAD LYNX).

This year the entries for the 2004, Breeders Forum Produce Stakes consisted of 339 litters, by 101 different stud dogs.
